DEATHS

Word was received here Wednesday that Joseph Dean, a prominent farmer of north-west of town who went to Rochester, Minn., several weeks ago to undergo an operation, had died. Wood & Huston Bank Struck by Lightning.

Friday night a heavy thunderstorm passed over Marshall about seven o'clock. Lightning struck the Wood & Huston bank building and set it afire. Smoke was seen coming from the building and an alarm sent in and although the department responded promptly it was nearly a half hour till the flames were located. One of the large columns had caught fire and was filling the building with smoke. After the fire was discovered it was but a few minutes work to ear away enough of the woodwork to put it out. The prompt discovery was very fortunate. The loss was very light.

Lightning also struck the Christian church Friday evening, and from the appearance of the court house dome, it also received a shock.

The Carpenter Trial

The case of Guy Carpenter came up in the Criminal Court last Thursday. He was charged with killing She'by Porter on the 20th of last December. The case had been twice continued by the state as the state's witnesses could not be found we are told and in order to hold Mr. Carpenter the case was dismissed and the charge withdrawn. He was released and a new warrant on the same charge issued and he was again placed under arrest. The date of his trial has not been set.

Watt Allen, who has been very sick near Slater, is up again.

NOW BEGS FOR MERCY

A Complete Confession If The Fines Be Very Small.

Washington, July 17.—The Standard Oil company, staggered by the imposition of the fine of 29 million dollars imposed upon it by Judge Landis of Chicago, and fearing a similar outcome to other suits still to be tried, has been begging for mercy.

Thus far it has been turned down by the administration, both President Roosevelt and Secretary Taft having agreed to let the case come to a final decision in the United States Supreme court. It did not become known until today that John D. Archbold, vice president of the Standard Oil company, visited the White house, before President Roosevelt retired to Oyster Bay and made application for a compromise.

The Standard, in effect, proposed that the government should consent to a nominal fine in each one of the cases, on the principle that this was the first offense, or at least that it was the first case to be publicly prosecuted. The administration's reply was "no."

Later—The Federal court at Chicago Wednesday declared the twenty-nine million dollar fine excessive and knocked out the fine. An appeal or new trial will no doubt be the result.
